

Themakaart verplantbaarheid

This thematic map illustrates the suitability for planting trees in a residential neighborhood. The map features a grid of streets including Boulenpad, Van Schendelstraat, Hora Siccansingel, Wermeus Buningstraat, Comperstraat, Helper Westsingel, Helper Westsingel, Helper Molenstraat, Bosch van Boenhorststraat, Van Iddekingeweg, Van Iddekingeweg, and Van Iddekingeweg. A blue canal, the Nettebrug, runs through the upper right portion of the map. Green circular markers, each containing a number, are distributed across the map to indicate specific planting locations and their priority or suitability score. The markers are concentrated along the Boulenpad, Van Schendelstraat, and along the canal. The map also shows building footprints in grey, green spaces in light green, and water bodies in blue. The title 'Themakaart verplantbaarheid' is located at the top left.
